FREQUENTLY ASKED QUESTIONS

DO WE CONSTRUCT GARDEN ROOMS NATIONWIDE?

Yes. We construct Garden Rooms in every county in Ireland. In order to gain a good understanding of your requirements it is extremely helpful to receive a photograph by e-mail of the proposed area you have planned for your Garden Room before our visit. We are happy to carry out a site survey and provide you with a detailed written quotation, without obligation and free of charge.

DO THE GARDEN ROOMS COME WITH A GUARANTEE?

Yes. All Garden Rooms come with a 10 year weather security guarantee as standard.

WHAT TYPE OF WINDOWS AND DOORS ARE USED IN GARDEN ROOMS?

A 1.2 U-Value glass rating is typical as all our glass is A Rated, shatter proof and comes with argon gas as standard. All our windows and doors are manufactured in aluminium facilitating the clean slim lines you see in our Garden Rooms.

DO I REQUIRE PLANNING PERMISSION FOR MY GARDEN ROOM?

Garden Rooms 25 square metres (270 Sq ft) or under qualify for an exemption from planning permission once an area of 25 square metres remains in your garden and the Garden Room is used to enhance the family lifestyle. We are always happy to talk you through the full requirements for our planning exempt Garden Rooms.

WHERE DOES OUR CEDAR COME FROM?

All our cedar is Canadian Red Wood Cedar. Sourced from Vancouver Island, Canada. We only use 250-300 year old, 100% PEFC Certified cedar. Our cedar has a class 2 Durability rating giving it a lifespan in excess of 40 years weather secured.

WILL I BE WARM ENOUGH IN THE WINTER?

Yes, All our Garden Rooms are double wall insulated as standard with 100mm earth wool and 25mm Kingspan insulation. As well as being thermally efficient they are also acoustically sound and will keep you very warm and cosy throughout the coldest winters. Our buildings are for year round use and we pride ourselves on providing the highest standard of insulation.

HOW LONG FROM GIVING THE GO-AHEAD TO WORK COMMENCING?

On average it takes 4-6 weeks to order in all your doors, windows, capping etc. A typical installation then only takes between 7-10 working days depending on the size. This can work out slightly longer if you request any additional services, for example a bathroom.

HOW DO I PREPARE THE AREA BEFORE YOUR TEAM ARRIVE ON SITE?

We ask that the site is clear of existing structures, trees and shrubs. Tree stubs need to be cut down to ground level but it's not necessary to remove tree roots underneath the ground. Grass is fine and we can build over existing patio slabs if you don't want to remove them.

CAN I BUILD A GARDEN ROOM CLOSE TO THE BOUNDARY LINE WITH MY NEIGHBOUR?

Yes. We can build your Garden Room right up to the boundary line with your neighbour. Instead of using cedar cladding on the boundary side we can install an aluminium cladding matching the RAL colour of the windows, doors and roof capping of your Garden Room. This comes with a 40 year weather security guarantee and happily does not require any ongoing maintenance.

CAN I CONSULT WITH A PREVIOUS CUSTOMER OF GARDEN ROOM?

Yes, absolutely! We have a long list of obliging customers dating back to 2003, and we would be more than happy to give you their contact details. We would actively encourage you to contact them directly to see how they are getting on with their Garden Rooms, and to hear their assessment of our service.
